Course Catalog

Welcome to our catalog of Mining Safety Courses! Here, you'll find everything you need to keep your teams safe and compliant.

We offer the broadest offering of safety courses in the world, so if there's something you need that isn't listed, please ask us: **There's a very high probability that we offer whatever safety or skills training you need.**

MSHA Part 46 Training Packages

MSHA Part 46 training equips miners to recognize and avoid the most common causes of accidents and injuries in the mining industry.

We offer several package options for both new miners looking to meet their initial 24-hour training requirement and experienced miners who need to satisfy their 8 hours of annual refresher training.

TITLE/PRODUCT NAME	PACKAGE LENGTH (HOURS)	DESCRIPTION
MSHA PART 46 24-HOUR NEW MINER TRAINING	24	Comprehensive package that covers safety, health, and compliance basics for surface miners in non-metal/non-coal industries to meet MSHA requirements for new workers.
MSHA PART 46 8-HOUR MINER REFRESHER TRAINING: HAZARD COMMUNICATION FOCUS	8	Covers foundational MSHA Part 46 topics and dives deeper into hazard recognition, hazard communication, and the Globally Harmonized System (GHS).
MSHA PART 46 8-HOUR MINER REFRESHER TRAINING: HEALTH & WELLNESS FOCUS	8	Covers foundational MSHA Part 46 topics with additional focus on health and wellness topics that can help prevent workplace injuries.
MSHA PART 46 8-HOUR MINER REFRESHER TRAINING: ENVIRONMENTAL SAFETY FOCUS	8	Covers foundational MSHA Part 46 topics and dives deeper into environmental safety issues such as chemical hazards, air quality, and respiratory safety.
MSHA PART 46 8-HOUR MINER REFRESHER TRAINING: SITE SAFETY FOCUS	8	Covers foundational MSHA Part 46 topics with additional focus on site accident prevention efforts such as fall protection, safe operation of machinery, and safe confined space entry.

MSHA Part 46 Foundations

Our foundational MSHA Part 46 courses cover the basics of mining hazards and equip surface miners to recognize and avoid the most common causes of accidents and injuries in the mining industry.
